

## 108th and 109th Avenues N Public Utilities Renewal

# A N N O U N C I N G

### WHAT

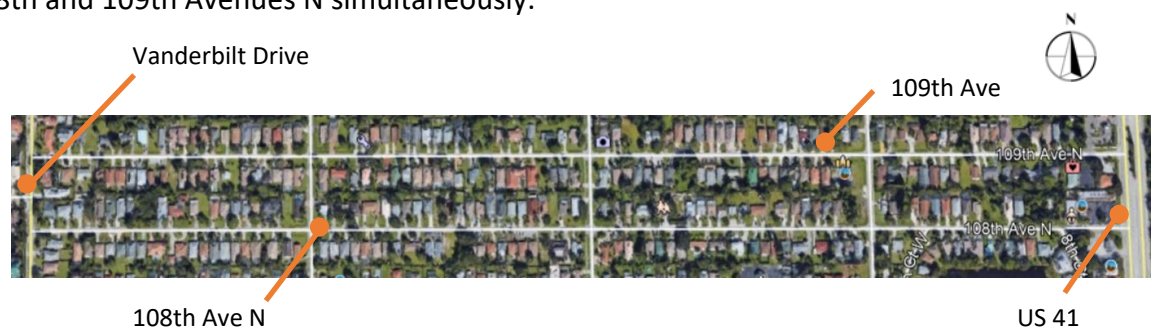

The 108th and 109th Avenue N Public Utilities Renewal (PUR) project will replace water, wastewater and stormwater pipes in the right-of-way.

### WHEN

The project was approved on March 23, 2021 by Collier County Board of County Commissioners. Construction will start April 2021.

### WHERE

108th and 109th Avenues N simultaneously.

### HOW

- First, we will replace the water main on all blocks simultaneously on 108th and 109th Avenues.
- Then, sewer and stormwater construction and restoration will follow, occurring one block at a time simultaneously on both avenues.
- This sequence minimizes neighborhood disruption and accelerates restoration.

### Your Part

- Soon you will be receiving a Right of Entry form in the mail. Please sign and return using the return envelop. This form allows the contractor to connect your new services.
- Clear the right-of-way of personal items you want to save. Right-of-way is approximately 20 feet from the edge of pavement towards your house.
