

## Naples Park Infrastructure Improvements

December 10, 2018

Dear Residents/Business Owners of the 500 block of 95<sup>th</sup> Avenue North:

The Collier County Public Utilities Project Team is informing you that the 95<sup>th</sup> Avenue North Public Utilities Renewal project will cease construction work from December 10, 2018 through January 2, 2019. The water main installation along 95<sup>th</sup> Avenue North from US 41 to Vanderbilt Drive is complete. The next phase of construction in the 500 block is the replacement of the sanitary sewer system down the middle of the roadway and the stormwater system located in each north and south right-of-way. This work will start in January when construction resumes.

In an effort to minimize disruption to the residents, as a team, Collier County and the Contractor have decided to perform the more impactful construction after the Holiday Season. During this work stoppage, the Contractor will ensure all driveways are kept in a usable condition and may operate watering trucks, as needed, to maintain the seeded grass and dust control within the project area.

Please contact our hotline at **239-269-1890** or email us at [NaplesParkPUR@Stantec.com](mailto:NaplesParkPUR@Stantec.com) with any special concerns or access needs; our website will also provide updates and general information pertaining to the project as it progresses. <http://www.collierpur.com>

Cordially,

Collier County  
Engineering and Project Management Division and Stormwater Section
