

# US 41 Water Main Replacement

April 17, 2020

Dear residents and businesses along U.S. 41 between 91<sup>st</sup> and 111<sup>th</sup> Avenue North:

Collier County's Public Utilities has finished the design phase of a project to replace the aging water main on U.S. 41 between 91<sup>st</sup> and 111<sup>th</sup> Avenue North. This project is necessary to ensure a continued high level of utility services for the community. Construction will take place over the next seven months starting the week of May 4<sup>th</sup>, 2020. There are no special assessments associated with this work. Due to the current limitations of COVID-19, communication will be by e-mail, phone, and the website [www.collierpur.com](http://www.collierpur.com).

## IMPORTANT NOTES

- The safety of the residents and utility workers is of the utmost importance.
- Our contractor will be recording a video that will capture preconstruction conditions in the project area.
- Survey and marking of the new water mains will be performed. Survey stakes and offset marks in the pavement will indicate the location of the mains. **Please do not move or remove stakes and markings.**
- Access to business and local traffic will be maintained.
- During final restoration, the portion of the driveway that was removed will be replaced to match the original material as close as possible.
- During construction, mailboxes may need to be temporarily removed, but will be reinstalled daily.
- Due to the contractor's means and methods of construction and to assure the safety of all, the contractor will need full access to the Right-of-Way. Temporary access roads, if needed, will be maintained for the benefit of the residents, emergency services, postal service, waste management, school buses, and other public service vehicles.
- During construction, notifications for planned water service outages will be sent to the affected residents and businesses; however, you may experience intermittent service outages due to field conditions and unforeseen water main breaks.
- Night work will be performed at some intersections of U.S. 41 and the Naples Park Avenues.
- Be patient during construction and subsequent restoration.

More information is available on our website, [www.collierpur.com](http://www.collierpur.com). Please watch for notices of pending construction in your area. If you have any questions, please call 239-451-0280 or email [NaplesParkPUR@stantec.com](mailto:NaplesParkPUR@stantec.com).

Cordially,

Diana C. Dueri, PMP  
Senior Project Manager
