

Construction Update: Master Pump Station 308 Force Main Installation

November 2019

As Collier County's contractor, Quality Enterprises USA, Inc., progresses with work in East Naples to install a new wastewater pipeline known as a force main, we continue to greatly appreciate your patience and cooperation.

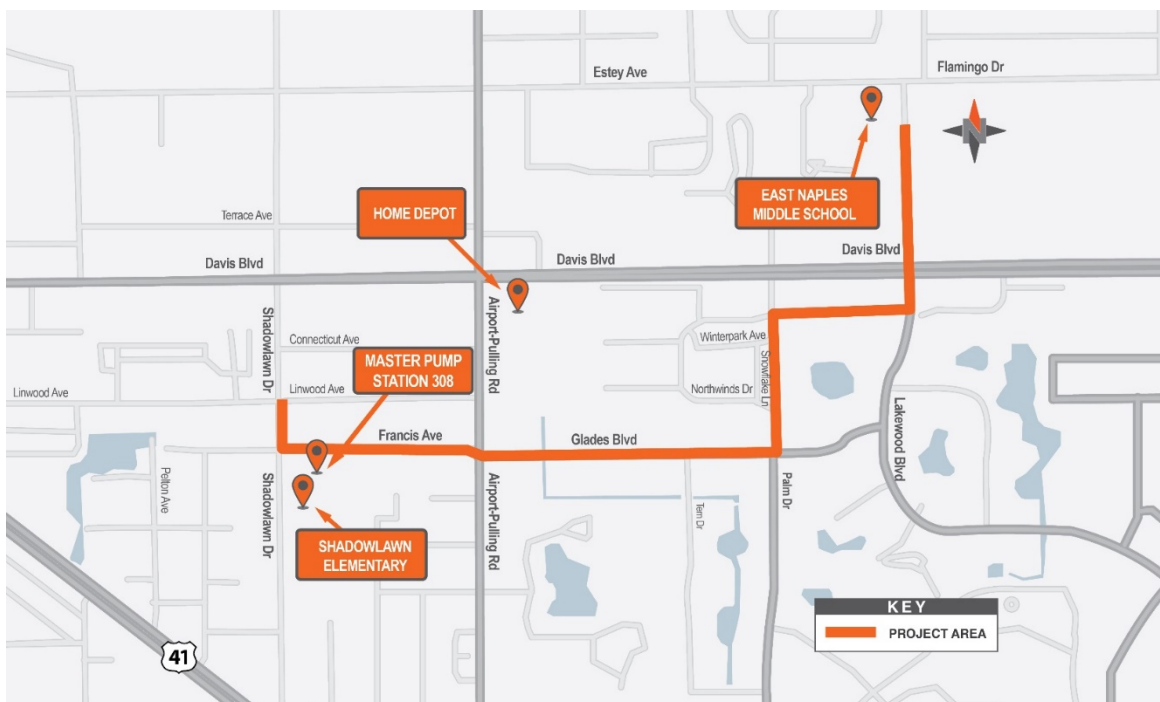

Currently, crews are working behind the apartment buildings on Snowflake Lane in Winterpark and will soon turn east and continue toward Lakewood Boulevard. Palm Drive remains closed to thru traffic at Glades Boulevard and Winterpark residents and guests should continue to use the access point on Davis Boulevard. We anticipate Palm Drive at Glades Boulevard will re-open by early December. Francis Avenue at Shadowlawn Drive also remains closed to thru traffic but is anticipated to re-open by the end of December.

The contractor is required to restore all work areas to pre-construction state by the completion of the project, which is anticipated for early 2020.

Please note construction timelines are fluid and often evolve throughout the life of a project. The projections above should not be considered final. We will do our best to keep you informed throughout the remainder of the project.
